Safety Data Sheet

According to Hazard Communication Standard (29 CFR 1910.1200)

R407C

Issue date: 04/29/2019 Version 1.0 Revision date: 04/29/2019

1. Identification

Product name R407C **Synonyms**

CAS# See section 3

Product code

Product use Used as refrigerants.

Manufacturer/Supplier

Supplier (Manufacturer): T.T.INTERNATIONAL CO., LTD.

UNIT 1, 25F SUPER TOWER 2, ETON PLACE NO.280 CHANGJIANG ROAD, Address:

ZHONGSHAN DISTRICT, DALIAN 116001 CHINA ROAD

Contact person(E-mail): TONGTAI@CHINAREFRIGERANT.COM

Telephone: +86 41182537172 +86 41182651288 Fax:

Emergency telephone Number: +86 41182537172(China)

2. Hazard(s) identification

GHS classification

Physical hazards Gases under pressure Liquefied gas

Not classified **Health hazards** Not classified **Environmental hazards**

GHS label elements

Hazard Pictograms

Signal word Warning

Hazard statement Contains gas under pressure; may explode if heated.

Precautionary statement

Prevention Not applicable. Response Not applicable.

Storage Protect from sunlight. Store in a well-ventilated place.

Not applicable. **Disposal**

3. Composition / information on ingredients

Components	CAS#	Percent
Norflurane	811-97-2	52±2%
Pentafluoroethane	354-33-6	25±2%
Difluoromethane	75-10-5	23±2%

4. First-aid Measures

Material name: R407C SDS US Version #:1.0 Revision date: 04-29-2019.

First aid procedures

Inhalation

Eye contact Immediately irrigate with eyewash solution or clean water, holding the eyelids apart, for

at least 10 minutes. Obtain immediate medical attention.

Skin contact Thaw affected area with water. Remove contaminated clothing. Caution: clothing may

adhere to the skin in the case of freeze burns. After contact with skin, wash

immediately with plenty of warm water. If irritation or blistering occur obtain medical

attention.

Remove patient from exposure, keep warm and at rest. Administer oxygen if

necessary. Apply artificial respiration if breathing has ceased or shows signs of failing. In the event of cardiac arrest apply external cardiac massage. Obtain immediate

medical attention.

Ingestion

Ingestion is not considered a potential route of exposure. Do not induce vomiting. Provided the patient is conscious, wash out mouth with water and give $200\mbox{-}300\mbox{ ml}$

(half a pint) of water to drink. Obtain immediate medical attention.

Treat symptoms. Notes to physician

5. Fire-fighting measures

Flammable properties Non flammable.

Extinguishing media

Suitable extinguishing media Use appropriate extinguishing media.

Unsuitable extinguishing media Not available.

Firefighting equipment/instructions Shut off gas supply if this can be done safely. If possible, take container out of

dangerous zone. Cool cylinders with water spray. Self-contained breathing apparatus

(SCBA) may be required if cylinders rupture or release under fire conditions.

Hazardous combustion products Hydrogen fluoride by thermal decomposition and hydrolysis.

6. Accidental release measures

Personal precautions Immediately contact emergency personnel. Keep unnecessary personnel away. Use

suitable protective equipment (section 8). Shut off gas supply if this can be done safely.

Isolate area until gas has dispersed.

Environmental precautions Prevent liquid from entering drains, sewers, basements and work pits since the vapor

may create a suffocating atmosphere.

Methods for cleaning up Provided it is safe to do so, isolate the source of the leak. Allow small spillages to

evaporate provided there is adequate ventilation. Large spillages: Ventilate area.

Contain spillages with sand, earth or any suitable adsorbent material.

7. Handling and storage

Handling Avoid inhalation of high concentrations of vapors. Atmospheric levels should be

> controlled in compliance with the occupational exposure limit. Atmospheric concentrations well below the occupational exposure limit can be achieved by good occupational hygiene practice. The vapor is heavier than air, high concentrations may be produced at low levels where general ventilation is poor, in such cases provide adequate ventilation or wear suitable respiratory protective equipment with positive air supply. Avoid contact with naked flames and hot surfaces as corrosive and very toxic

Material name: R407C

2/6 Version #:1.0 Revision date: 04-29-2019. Issue date: 04-29-2019.

decomposition products can be formed. Avoid contact between the liquid and skin and eyes. For correct refrigerant composition, systems should be charged using the liquid

phase and not the vapor phase.

Keep in a well ventilated place. Keep in a cool place away from fire risk, direct sunlight **Storage**

> and all sources of heat such as electric and steam radiators. Avoid storing near to the intake of air conditioning units, boiler units and open drains. Cylinders and Drums:

Keep container dry. Storage temperature: < 45°C

8. Exposure controls / personal protection

Control parameters:

OCCUPATIONAL EXPOSURE LIMITS (OEL)

INGREDIENT DATA:

Not Available

EMERGENCY LIMITS:

Ingredient	TEEL-1	TEEL-2	TEEL-3
Difluoromethane	1,300 ppm	1300 ppm	39000 ppm

Ingredient	Original IDLH	Revised IDLH
Norflurane	Not Available	Not Available
Pentafluoroethane	Not Available	Not Available
Difluoromethane	Not Available	Not Available

Exposure controls:

Appropriate engineering controls Use adequate general or local exhaust ventilation to keep airborne concentrations below the permissible exposure limits.

Individual protection measures, such as personal protective equipment:

Eye / face protection Sufficient eye protection should be worn. When handling compressed gas, at least glasses with

side protection should be worn. When handling liquid gas, chemical safety goggles must be

used as well as a protective shield.

Skin protection Body protection: Use protective boots while handling gas cylinders.

Hand protection: Wear leather gloves to prevent frostbite injuries from rapidly expanding gas

when handling pressurised gas bottles.

Respiratory protection In an emergency (e.g.: unintentional release of the substance, exceeding the occupational

exposure limit value) respiratory protection must be worn. Consider the maximum period for

wear. Wear self-contained breathing apparatus. Do not use filter respirator.

Wash hands, forearms and face thoroughly after handling chemical products, before eating, General hygiene

smoking and using the lavatory and at the end of the working period. Keep away from

foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing.

9. Physical and chemical properties

Appearance

considerations

Physical state Gas

Form Compressed liquefied gas

Clear, colorless Color

SDS US Material name: R407C Issue date: 04-29-2019.

Odor Slight ethereal
Odor threshold Not available
pH Not available

Vapor pressure 7810 mm Hg at 20°C

Melting point/Freezing pointNot availableinitial boiling point and boiling range-44.3°C to -37.1°CFlash pointNot availableEvaporation rateNot availableFlammability (solid, gas)Non flammableExplosion limitsNot available

Vapor density 3.0 at bubble point temperature. (Air = 1)

Relative density

Solubility (water)

Not available
Insoluble in water

Partition coefficient Log pow = $0.21 (25 \,^{\circ}\text{C}) (CAS\# 75-10-5)$

Log pow =1.48(25 °C) (CAS#354-33-6) Log pow =1.06 (25 °C) (CAS#811-97-2)

Auto-ignition temperatureNot availableDecomposition temperatureNot availableSpecific gravityNot available

Density 1.16 g/cm3 at 20°C

Flammability limits in air, upper, %by volume Not available Flammability limits in air, lower, % by volume Not available VOC Not available Percent volatile Not available

Other data

Viscosity Not available

10. Stability and reactivity

Chemical stability Material is stable under normal conditions.

Conditions to avoid Incompatible materials. Avoid open flames and high temperatures.

Incompatible materials Finely divided metals, magnesium and alloys containing more than 2% magnesium.

Hazardous decomposition products Hydrogen fluoride by thermal decomposition and hydrolysis.

Possibility of hazardous reactionsCan react violently if in contact with alkali metals and alkaline earth metals - sodium,

potassium, barium.

11. Toxicological information

Toxicokinetics, metabolism and distribution:

Non-human toxicological data: Not available

Information on toxicological effects:

Acute toxicity:

Norflurane (CAS#811-97-2)

LD50(Oral, Rat):Not availableLD50(Dermal, Rabbit):Not availableLC50(Inhalation, Rat):1500 mg/m3/4h

Material name: R407C SDS US

Version #:1.0 Revision date: 04-29-2019. Issue date: 04-29-2019.

Pentafluoroethane(CAS#354-33-6)

LD50(Oral, Rat): Not available LD50(Dermal, Rabbit): Not available LC50(Inhalation, Rat): 2910 g/m3 4h

Difluoromethane (CAS# 75-10-5)

LD50(Oral, Rat): Not available LD50(Dermal, Rabbit): Not available LC50(Inhalation, Rat): > 520000 ppm 4H Skin corrosion/Irritation: Not classified. Serious eye damage/irritation: Not classified Respiratory or skin sensitization: Not classified Germ cell mutagenicity: Not classified Carcinogenicity: Not classified Not classified Reproductive toxicity: STOT- single exposure: Not classified STOT-repeated exposure: Not classified Aspiration hazard: Not classified

12. Ecological information

Toxicity:

Norflurane (CAS#811-97-2)

Acute to	xicity	Time	Species	Method	Evaluation	Remarks
LC50	450 mg/L	96h	Fish	OECD 203	N/A	N/A
EC50	980	48h	Daphnia	OECD 202	N/A	N/A
EC50	N/A	72h	Algae	OECD 201	N/A	N/A

Difluoromethane (CAS# 75-10-5): Not readily biodegradable.

pentafluoroethane (CAS# 354-33-6): Under test conditions no biodegradation

observed.

Persistence and degradability: Norflurane (CAS# 811-97-2): Negligible biodegradation after 28 days.

Difluoromethane (CAS# 75-10-5): The low octanol-water partition coefficient indicated

that the product is not likely to bioaccumulate.

pentafluoroethane (CAS# 354-33-6): No appreciable bioaccumulation potential is to be

expected.

Norflurane (CAS# 811-97-2): R-134a will not bioconcentrate in fish and aquatic

organisms. **Bioaccumulative potential:**

Mobility in soil: The product is insoluble in water.

The mixture does not contain any PBT / vPvB substance. Results of PBT&vPvBassessment:

Other adverse effects: No known significant effects or critical hazards.

13. Disposal considerations

Disposal instructions Dispose of contents/container in accordance with local/regional/national/international

regulations.

Contaminated packaging Since emptied containers may retain product residue, follow label warnings even after

container is emptied.

Material name: R407C

SDS US Version #:1.0 Revision date: 04-29-2019. Issue date: 04-29-2019. 5/6

14. Transport information

DOT
